U.S. Department of Justice
Justice Management Division

TO: Peter P. Strzok
Assistant Special Agent in Charge
Washington Field Office
Federal Bureau of Investigation

FROM: Robert M. Zanger
Attorney/Advisor
Justice Management Division
Office of Records Management and Policy

SUBJECT: Response to Request for Records

DATE: April 20, 2016

This memorandum documents the response to your memorandum of September 15, 2015, to Lee Lofthus, Assistant Attorney General for Administration, requesting the preservation and production of "all electronic and transactional records between any @clintonemail.com e-mail account" and thirty-nine (39) specified DOJ e-mail accounts (the FBI Memorandum); and a follow up email from Special Agent [redacted] to me of September 21, 2015, expanding the request to include "a general, or gateway, search of its [DOJ's] systems for any other electronic and transactional records involving the identified external e-mail domain [@clintonemail.com]."

b6 per FBI
b7C per FBI

In response to the FBI memorandum: (1) JMD confirmed notification to all of the current employees whose email addresses appeared in the FBI memorandum ("named custodians"); (2) JMD and the other components with named custodians searched the electronic information of the named custodians, including email and documents; (3) JMD and the other components with named custodians searched other potential sources of information, primarily paper, from the departed named custodians; and (4) JMD, EOUSA, and the Criminal Division performed email gateway server searches. Below is more detailed information on the notifications, searches and findings.

b3 per FBI HRC-5654
b7E per FBI

[redacted] - PRES PRO - 83

Notification to Identified Potential Custodians

JMD contacted the Component Head or Chief of Staff for each component with a named custodian identified in the FBI Memorandum. JMD asked the Component Head or Chief of Staff to contact all the named custodians still with the Department and request a confirmation that the current named custodians understood their obligations under the FBI Memorandum. Each current named custodian confirmed notification and indicated an understanding of his/her obligation.

Searches of Electronic Information

JMD searched for any appearance of the @clintonemail.com domain in the electronic information (including email and documents) of current and departed named custodians from the components for which JMD maintains electronic information. JMD located a small number of documents containing the term, but no email between the @clintonemail.com and any named custodian. These documents were reviewed by the JMD Security and Emergency Planning Staff that oversees the DOJ classification program, and determined not to be subject to classification. The located documents do not appear to be relevant to your inquiry. Please contact me if you would like to receive copies of the located documents.

In addition to the named custodians in the components for which JMD maintains electronic information, there were also named custodians from the Civil Division, the Civil Rights Division, the Criminal Division, the Executive Office for United States Attorneys, and the Tax Division. Each of these components maintains its own information. Each of these components performed a search for any appearance of the @clintonemail.com domain address in the electronic information (including email and documents) of its current and departed named custodians. The Civil Division located 9 documents containing the term @clintonemail.com. A review of the content of the 9 records by the Civil Division confirmed that the responses were related to the Division's handling of Freedom of Information Act litigation, not communications between the custodian and the @clintonemail.com domain. Please contact Allison Stanton, Director of E-Discovery, FOIA, and Records, with the Civil Division at (202) 514-8315 if you would like to receive copies of the documents located by the Civil Division. No other documents containing the term were identified in any of these component searches.

Searches of Other Potential Sources of Information

Named custodians still with the Department performed their own searches of other potential sources of information in their control in accordance with the FBI Memorandum. Records personnel for JMD and records and other personnel for the non-JMD components with named custodians searched the other potential sources of information (primarily paper) of the departed named custodians.

No evidence or transactional record was located relating to communications between the email addresses specified in the FBI Memorandum and the @clintonemail.com email account as a result of these searches of other potential sources of information.

Email Gateway Searches

The JMD-managed Email Gateway Server logs metadata, including email addresses, associated with all incoming and outgoing e-mail traffic for every DOJ email address, except those in the FBI. The server log is maintained for a period of two years. JMD performed a search in the JMD-managed Email Gateway Server log for the @clintonemail.com domain covering the period of 2/3/2014 to 2/3/2016 and found no email to or from the @clintonemail.com domain.

JMD contacted the CIO or CIO representatives in every component with a custodian named in the FBI Memorandum and inquired whether they had a capability to search email or email logs that extended beyond the two year range of the JMD Email Gateway Server logs. Only EOUSA and the Criminal Division indicated such a capability. EOUSA and the Criminal Division performed their own email searches and neither found an appearance of an email to or from the @clintonemail.com domain.

Please contact me at (202) 598-2072 if you have any questions about any aspect of this response.

b6 per FBI
b7C per FBI

Mr. Zanger,

b6 per FBI
b7C per FBI

This is a follow up to your telephone conversation this morning with SA [REDACTED] regarding the preservation and production request that was sent to the Department of Justice (DOJ) on September 15, 2015.

b7E per FBI

The request identified several DOJ e-mail accounts that were known to be in contact with the identified external e-mail domain. However, it is possible that there are other yet to be identified [REDACTED] e-mail addresses that are relevant to this matter, so we do not want to limit the request to only the e-mails listed in the preservation and production request in case your search identifies other relevant e-mails. Therefore, in addition to searching DOJ systems for any electronic or transactional records between the specified external e-mail domain and the provided DOJ e-mail accounts, it is also requested that DOJ conduct a general, or gateway, search of its systems for any other electronic and transactional records involving the identified external e-mail domain, which meet the criteria described in the preservation and production request.

Thank you for your assistance,

b6 per FBI
b7C per FBI

[REDACTED]

I wanted to provide you my contact information and let you know I did speak with our technical personnel. The global domain search for @clintonemail.com is possible, we refer to it as a gateway search, but the gateway search records only go back a limited amount of time. We are researching the exact time limit now, but believe it to be around one year.

September 28, 2012

Statement by the Director of Public Affairs for National Intelligence Shawn Turner on the intelligence related to the terrorist attack on the U.S. consulate in Benghazi, Libya

In the aftermath of the terrorist attack on U.S. personnel and facilities in Benghazi, Libya, the Intelligence Community launched a comprehensive effort to determine the circumstances surrounding the assault and to identify the perpetrators. We also reviewed all available intelligence to determine if there might be follow-on attacks against our people or facilities in Libya or elsewhere in the world.

As the Intelligence Community collects and analyzes more information related to the attack, our understanding of the event continues to evolve. In the immediate aftermath, there was information that led us to assess that the attack began spontaneously following protests earlier that day at our embassy in Cairo. We provided that initial assessment to Executive Branch officials and members of Congress, who used that information to discuss the attack publicly and provide updates as they became available. Throughout our investigation we continued to emphasize that information gathered was preliminary and evolving.

As we learned more about the attack, we revised our initial assessment to reflect new information indicating that it was a deliberate and organized terrorist attack carried out by extremists. It remains unclear if any group or person exercised overall command and control of the attack, and if extremist group leaders directed their members to participate. However, we do assess that some of those involved were linked to groups affiliated with, or sympathetic to al-Qa'ida. We continue to make progress, but there remain many unanswered questions. As more information becomes available our analysis will continue to evolve and we will obtain a more complete understanding of the circumstances surrounding the terrorist attack.

We continue to support the ongoing FBI investigation and the State Department review of the Benghazi terrorist attack, providing the full capabilities and resources of the Intelligence Community to those efforts. We also will continue to meet our responsibility to keep Congress fully and currently informed. For its part, the Intelligence Community will continue to follow the information about the tragic events in Benghazi wherever it leads. The President demands and expects that we will do this, as do Congress and the American people. As an Intelligence Community, we owe nothing less than our best efforts in this regard, especially to the families of the four courageous Americans who lost their lives at Benghazi in service of their country.

Boyd,

September 28, 2012

Statement by the Director of Public Affairs for National Intelligence Shawn Turner on the intelligence related to the terrorist attack on the U.S. consulate in Benghazi, Libya

In the aftermath of the terrorist attack on U.S. personnel and facilities in Benghazi, Libya, the Intelligence Community launched a comprehensive effort to determine the circumstances surrounding the assault and to identify the perpetrators. We also reviewed all available intelligence to determine if there might be follow-on attacks against our people or facilities in Libya or elsewhere in the world.

As the Intelligence Community collects and analyzes more information related to the attack, our understanding of the event continues to evolve. In the immediate aftermath, there was information that led us to assess that the attack began spontaneously following protests earlier that day at our embassy in Cairo. We provided that initial assessment to Executive Branch officials and members of Congress, who used that information to discuss the attack publicly and provide updates as they became available. Throughout our investigation we continued to emphasize that information gathered was preliminary and evolving.

As we learned more about the attack, we revised our initial assessment to reflect new information indicating that it was a deliberate and organized terrorist attack carried out by extremists. It remains unclear if any group or person exercised overall command and control of the attack, and if extremist group leaders directed their members to participate. However, we do assess that some of those involved were linked to groups affiliated with, or sympathetic to al-Qa'ida. We continue to make progress, but there remain many unanswered questions. As more information becomes available our analysis will continue to evolve and we will obtain a more complete understanding of the circumstances surrounding the terrorist attack.

We continue to support the ongoing FBI investigation and the State Department review of the Benghazi terrorist attack, providing the full capabilities and resources of the Intelligence Community to those efforts. We also will continue to meet our responsibility to keep Congress fully and currently informed. For its part, the Intelligence Community will continue to follow the information about the tragic events in Benghazi wherever it leads. The President demands and expects that we will do this, as do Congress and the American people. As an Intelligence

Community, we owe nothing less than our best efforts in this regard, especially to the families of the four courageous Americans who lost their lives at Benghazi in service of their country.

There should be a cable show where all the guests, and the anchor, have to wear polygraphs.

Or, when there's a dispute between source, the aggrieved parties take a poly, with some neutral third party rendering judgment

I prefer that we go by henchmen. Has more of a Marvel Comic sinisteress to it.

There should be a cable show where all the guests, and the anchor, have to wear polygraphs.

Or, when there's a dispute between source, the aggrieved parties take a poly, with some neutral third party rendering judgment

The Biggest Liar

At least you're only a liar. Could be worse - we're liars and also allegedly leakers.

So you've got that going for you, which is something.

Broader plan is IC acknowledgment of an evolving assessment of what took place, which happens to be true (unlike just about everything else we've seen reported on Benghazi)
